TWM Solicitors has recently acted for Sven Christiansen plc with regards to the restructuring of its business, including the sale of 50 per cent of the issued share capital of the Company, buyback of shares and the subsequent creation of the Sven Group.

Sven Christiansen, which was founded in 1974, is a British manufacturer of office furniture. Headquartered in Guildford and with a factory in the West Midlands, Sven Christiansen distributes nationwide through a network of resellers.

The TWM team was led by Jamie Berry (Head of Business Law) and assisted by Sarah Marchant.

TWM advised us on all elements of a buyback of company shares, generating all the necessary documentation for a transaction that resulted in a restructuring of the ownership of the business, within a period of just three weeks. We found TWM to be not only professional, efficient and helpful, but also supportive – that elusive aspect of service that enables a client to feel relatively relaxed in inherently tense circumstances. We greatly appreciate their assistance in progressing and completing this matter within such a tight time scale.

William O'Brien, Managing Director of Sven Christiansen plc
